Stop Playing the Dice Devices to Design Amazing Products

By Mr. Anshuman Sharma

CreateSpace Independent Publishing Platform. Paperback. Condition: New. This item is printed on demand. 136 pages. Dimensions: 9.0in. x 6.0in. x 0.3in. Few companies have mastered the art of product design and they are extremely successful in the market with high profitability and growth. These companies use the product design skills as their competitive advantage and protect it like trade secret. In fact, the process of creating great products is not complex. It is a set of tools and methods which, if used properly and sincerely, can support any design team to develop amazing products. We have tried to expose these methods and devices in this work. To contrast the available books on product design methods, we have kept this book extremely simple. The specified devices can be used by any sincere person looking to design products. The simplicity of the devices is evident from the fact that even a layperson, with no knowledge about product design, can understand and use these devices. A successful product needs to be holistic, equipped with innovative marketing, superior quality and emphatic support. An innovative design of a product with weak support cannot get success in the market. The products are differentiated by their value proposition,...
