Neuware - Seminar paper from the year 2006 in the subject English Language and Literature Studies - Culture and Applied Geography, grade: 2,0, University of Dortmund (Anglistik/Amerikanistik), language: English, abstract: A collection of essays on the Edwardian Age based on texts written at that time.I. On the Character of the Edwardian AgeII. On J. B. Priestley: The Excesses of Edwardian High SocietyIII. On Paul Thompson: Sidney Ford (lower middle class, London)IV. On Vita Sackville-West: Parties and Meals: A Helpful RoutineV. ConclusionAt first glance it seems ridiculous speaking of an age when the period that has to be given a name did not last any longer than ten years. However those ten years which all of the three authors write about, truly deserve this attribute although it appears as rather dull compared to the period before, namely the reign of Victoria (Porter, p. 128), a hectic and heroic age when battles were fought and won and frontiers were pushed forward. The term Edwardian Age does not only stand for the reign of Edward, but also for a very special place in British history which marks the changeover from the old to the modern British society. It is associated with a huge number of political and social developments. The question all of the three texts try to answer is whether the Edwardian Age should be regarded as a golden age or as an age of crisis, which has obviously been discussed since the era itself. In fact, there are reasons to define the Edwardian Age with both of these terms. 40 pp. Englisch.
