For example, pharmaceutical companies cannot afford to actually cure sickness and diseases (most of which are actually preventable). The drug companies therefore are the workers of iniquity . After reading this work, no reader will be left with doubt or ignorance of the evil systems that have worked and are working still to enhance the demise of the human race. The Mechanics of Evil Reasoning has been taken from Ben Ammi s greater work God and the Law of Relativity which sets forth the blueprint for survival into the 21st Century.
