BINARY LINEAR CODES, BINARY MATRICES AND GRAPHS

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | An efficient method for computing the automorphism groups | After the second World War, Claude Shannon formalized the information theory as a branch of mathematics, posing the problems of reliability and security. Reliability deals with the ability to transmit without error a message despite alterations in communication: it is treated by error correcting codes theory. In 1950, Richard Wesley Hamming worked with Shannon on this subject. He used vector spaces of finite...
