SPACE AND ENERGY PARAMETER AND ITS APPLICATION IN RESEARCH

Gregory Korablev
Space and energy
parameter and its
application in research

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | The methodology developed by the author and presented in this monograph is aimed at evaluation of formation processes for complex, multi-component systems and is based on the understanding of spatial-energy parameter (P-parameter). Such a criterion is introduced when analyzing several physical and chemical regularities, including Lagrangian equations and consideration of the most important atomic characteristics. Specific application of such an approach to estimate the degree and direction of structural interactions, phase-formation processes,...
